Trinnov Audio and Kaleidescape Announce Curated Content Package Titles

New Customers Receive 42 Titles, Including 4K Ultra HD, HDR, and Dolby Atmos Mastered Movies

MOUNTAIN VIEW, CA and PARIS, October 27, 2021—Kaleidescape, the industry leader in delivering the finest private cinema playback experience, and Trinnov Audio, designer and manufacturer of reference audio processors for private cinemas, [recently announced](#) a collaboration to deliver a heightened sensory experience to customers.

With the purchase of a Trinnov Altitude¹⁶ or Altitude³² processor and a Kaleidescape Terra + Strato C system, customers receive a Trinnov-curated collection of movies valued up to \$1,000 USD. This collection includes forty-two titles with incredible audio, including some with Dolby Atmos and DTS:X soundtracks, which can be preloaded onto the Kaleidescape Terra server.

“Chuck Back and I have personally selected these titles, from action and adventure to animation and family-friendly movies, giving Kaleidescape and Trinnov customers a spectacular experience with their new system,” explains Jon Herron, managing director, Trinnov Audio. “Only Kaleidescape is designed to present movies at full reference, with lossless-quality audio ensuring customers will be blown away when they hit Play and experience the power of Trinnov audio processing when matched with Kaleidescape playback.”

Trinnov's Altitude³² processors are capable of up to 32 discretely rendered immersive audio channels for private theater. Seven years after its introduction, it remains the only unit that can do so. For more

*****MEDIA ALERT*****

modest systems, the lower-cost Altitude¹⁶ can render 16 discrete channels. Both models benefit from Trinnov's exclusive, patented technologies, including Trinnov's loudspeaker/room Optimizer and 2D/3D loudspeaker Remapping.

The Kaleidescape system is designed to play 4K HDR movies with a video bitrate four times higher while reproducing lossless quality audio at up to ten times higher than any streaming device. With Kaleidescape's unparalleled, reference-quality movie ecosystem, the combination of Kaleidescape's Terra + Strato C delivers a level of quality previously found only in the finest of premium commercial cinemas. This results in a profound difference in sound clarity and detail when playing through a Trinnov Altitude processor.

This promotion is available from September 1, 2021, through December 31, 2022 (US only).

About Kaleidescape (www.kaleidescape.com)

Kaleidescape is the only online provider of films with full-fidelity audio and video for luxury private cinemas. The company's internet-delivered movies include proprietary metadata that enables its award-winning movie players to produce a truly astonishing private cinema experience. Kaleidescape systems are installed worldwide in the best homes and yachts. Founded in 2001, and headquartered in California, Kaleidescape sells its products exclusively through custom integrators.

About Trinnov Audio (www.trinnov.com)

Trinnov's founders began researching high spatial resolution audio 20 years ago, well before today's immersive audio formats were even conceived.

Today, the French manufacturer is advancing audio performance in homes, studios and commercial cinemas with our world-renowned loudspeaker/room Optimizer and other proprietary technologies that are protected by over 50 international patents.

With over 5,000 high-performance installations worldwide, Trinnov's unique hardware and software platform enables first-to-market solutions and virtually eliminates obsolescence, with each installation backed by industry-leading remote technical support. Prestigious customers include Technicolor, Fox, BBC, Globo, NHK, Toho and UGC.
